

## PROGRAMME SPECIFICATION

1. Applies to cohort commencing in:	2020					
2. Degree Granting Body	University of London					
3. Awarding institution	The Royal Veterinary College (University of London)					
4. Teaching institution	The Royal Veterinary College (University of London) and Institute of Zoology (IoZ, Zoological Society of London)					
5. Programme accredited by	Royal Society of Biology					
6. Name and title	Master in Science in Wild Animal Biology (MSci WAB)					
7. Intermediate and Subsidiary Award(s)	Cert HE in BSc Biological Sciences					
Awaru(5)	Dip HE in BSc Biological Sciences BSc Biological Sciences					
8. Course Management Team	Course Director: Dr Charlotte Lawson					
	Pathway Leader: Dr Stuart Patterson					
	Year 1 Leader: Dr Donald Palmer					
	Year 2 Leader: Dr Abir Mukherjee					
	Year 3 Leader: Dr Isabel Oriss					
	Year 4 Leader: Dr Stuart Patterson					
9. FHEQ Level of Final Award	Level 7					
	See					
	http://www.qaa.ac.uk/en/Publications/Documents/qualifi					
	cations-frameworks.pdf					
10. Date of First Intake	2015					
11. Frequency of Intake	Annually in September					
12. Duration and Mode(s) of Study	Full time: four years. Face to face.					
	However, during the Coronavirus/COVID-19 pandemic, the					
	mode of delivery will be blended, a blend of on-campus and					
	off-campus learning.					
13. Registration Period (must be in line with the General Regulations for Study and	Full Time   Part Time					
Award)	Minimum Maximum Minimum Maximum					
	3 Academic 6 Academic 4 Academic 7 Academic					
44 Timing of Exemination Danud	Years Years Years Years					
14. Timing of Examination Board meetings	Annually in July					
15. Date of Last Periodic Review	N/A					
16. Date of Next Periodic Review	2020, 2026					
17. Language of study and assessment	English					
18. Entry Requirements						
io. Entry Requirements	https://www.rvc.ac.uk/study/undergraduate/msci-wild- animal-biology#tab-entry-requirements					
	Progression to Year 4					
	To be considered for progression to Year 4, applicants					
	must have achieved an aggregate Year 2 mark of at least 50%					
19. UCAS code	N/A					
	1 1// 1					

Report of the Committee of Enquiry into Veterinary Research (the Selborne Report)

Quality Assurance Agency, The Frameworks for Higher Education Qualifications of UK Degree- Awarding Bodies, 2014

Higher education credit framework for England: guidance on academic credit arrangements in higher education in England, Quality Assurance Agency, 2008

Regulations of the University of London Future Fit, CBI 2009 Degree Accreditation Criteria, Royal Society of Biology SEEC Level Descriptors for Higher Education, SEEC, 2010

## 23. Aims of programme

The programme aims to:

- Produce graduates equipped to play a leading role in conservation as researchers, epidemiologists, academics and senior management in in-situ conservation programmes, national parks, zoological collections, universities and government departments worldwide
- Produce high-calibre graduates who can proceed to study for higher research degrees

The specific aims of the MSci Year are to enable students to:

- Gain research experience within the field of wild animal biology
- Gain a deep and systematic understanding of current questions, problems and methods employed within the selected specialised research topic
- Implement principles of project and experimental design and carefully execute, record and clearly disseminate research
- < Use self

<	Have developed the ability to access appropriate information, make methodical observations on the normal and abnormal functioning of biological systems, discriminate between important and relatively unimportant information and observations, reflect on information and observations, and solve problems, and discuss uncertainty in relation to scientific "facts", and balance different schools of thought.	Year 3 Research Project Year 4 Research Project
<	Develop independent and lifelong learning skills to promote their own personal and professional development	Tutorials & Skills Workshops (across all modules)
<	Develop important employability skills including: Communication, Teamwork, Personal management and career planning, effective learning, Problem- solving, digital literacy, numeracy.	Across all modules, with particular emphasis in projects and tutorials
<     <	Act with integrity, be honest, fair and compassionate in all their work. Maintain high ethical principles in relation to professional dealings, the use of information and experimentation in humans and animals.	Investigative Projects (all years)
<	Clearly communicate their project aims, background, results, relevance and own proposals for future research, demonstrating critical analysis and a deep and systematic knowledge and understanding of the literature.	Research Skills module
<	Clearly and properly record their research.	Research Skills module & Year 4 project
<	Demonstrate excellent professional conduct.	Year 4 project
<	Identify specific areas for personal and skill development.	Research Skills module
<	Be able to examine the models used to assess population viability, and have an understanding of the allocation of scarce resources for conservation	Conservation Biology

<	•	epidemiology and the gy of infectious agents	The Impact of Disease on Populations				
<ul> <li>Understand the principles of animal management and preventive medical approaches to maintain healthy populations and enhance their welfare</li> </ul>		Health and Welfare of Captive Wild Animals					
<	<ul> <li>Understand the influence of human behaviour on the health of ecosystems, and the means by which this can be measured</li> </ul>			Ecosystem Health			
<	available to prac	ss the range of options ctically intervene in wild and evaluate the practical set of options	Interventions				
<ul> <li>Interpret the outputs from a surveillance system, paying due attention to the limitations of the data and be able to reach evidence based conclusions.</li> </ul>			Detection, S	ion, Surveillance, and Emerging Diseases			
25.	25. Teaching/learning methods		Approximate total number of hours These figures may differ during the COVID-19 pandemic				
Leo	ctures		8- 10 hours				
Pra	ctical / Directed I	_earning sessions	8-10 hours p	ber week			
Tutorials & self-directed Learning 5 hours			5 hours per				
-	search Project (Y		20 hours pe				
-	Assessment mo	ethods	Percentage	of total a	ssessmen	t load	
	ursework		MSci: 21%				
			MSci: 42%	MSCI: 42%			
	jects Feedback		MSCI: 37%				
In each module in each year, there are a number of formative feedback opportunities. These include written formative feedback on individual coursework, online quizzes with answers, group question and answer sessions, feedback to the year group about exam and ICA performance, feedback to individual students about exam and ICA performance (in one-to-one tutorials). Students are encouraged to seek feedback from lecturers and tutors as needed during all small group learning and practical classes. Frequent opportunities for formative feedback (oral and written) during investigative projects.
